

Telling Textile Stories

heimtextil

10 – 13.1.2017
Tuesday – Friday

messe frankfurt

The place for success stories.

SETTING *Frankfurt Exhibition Centre, 20 hall levels. Over 2,850 exhibitors from all over the world with their latest product ideas for textile interior design – including decorative and furniture fabrics, products for the bedroom, bathroom and table, as well as wall design and sun protection.*

PLOT *A unique opportunity to discover, compare and order innovations from more than 68 countries. Find out at first hand where the industry is going in terms of interior textiles, interior design and interior trends.*

2017 – THE NEXT CHAPTER *All the latest developments across the entire industry will be on show at the largest trade fair for home and contract textiles. Well-known companies present their new portfolios, international experts share their knowledge in a series of lectures and more than 200 design studios showcase their ideas at “Design Live” – the most important international exhibition for textile design.*

Back to the future: Trends 2017/2018.

What will consumers be looking for next season and which styles will be particularly in demand? International design agencies provide answers to these questions at the Heimtextil Theme Park EXPLORATIONS. This initiative showcases a panorama of diverse trend worlds, created by Carlin International under the direction of Exalis from Berlin, Germany.

Embark on a journey into the unknown and explore new territories. Encounter textures and patterns from foreign worlds combined to form original mixtures. Natural aspects and vivid characteristics give rise to unexpected experiences. The most exciting discoveries can be ordered directly from exhibitors at the fair.

View the 2017/2018 trends from the perspective of well-known industry speakers at the Heimtextil Theme Park in Hall 6.0 and come to the lectures at "Conference Space". You can also order the Trend Book with detailed descriptions of materials, shapes and colours at: heimtextil-theme-park.com

Architectural questions – textile solutions.

Architects, interior architects, interior designers and hoteliers search for inspiration at Heimtextil – and will find the world's largest collection of contract textiles. Benefit from a sensational selection of products that meet the demanding standards of the contract sector and your design requirements. Forge contacts with new partners for your interior projects. Relevant exhibitors are listed online and in the "Guide Interior.Architecture.Hospitality", which can be picked up throughout the fair.

A key meeting place for the contract textile sector is the "Salon Interior.Architecture.Hospitality" in the foyer of Hall 4.0. The focus here is on architecture, textile interior design and hotel outfitting. Discover the ideas of well-known industry professionals and experts at high-calibre lectures in the "Saal Europa" and on special guided tours. Heimtextil is once again working with big-name partners from architecture and the hotel trade, including the magazines AIT, HotelDesign/ AHGZ and Architonic.

A green thread running through the fair.

The success story of “green” interior textiles continues at Heimtextil. In the “Green Village” in Hall 8.0 you’ll discover at first hand valuable ideas around this key future theme. Quality mark organisations and certification bodies will be there describing their services. Learn about the latest developments in this sector from industry experts at a series of events at “Speakers Corner”. All exhibitors who manufacture environmentally sustainable and fairtrade products can be found quickly and easily in the “Green Directory” as well as online.

On the “Green Tour”, Max Gilgenmann, consultant for sustainable fashion and textiles, guides you to selected exhibitors with particularly innovative products. The “Young Creations Award: Upcycling” exhibition in Hall 4.2 shows how up-and-coming designers and skilled craftspeople view the issue of sustainability.

Good things come in small packages.

If you just need a few metres of a particular fabric or a small quantity of a specific item, the “Retail Trade Suppliers” directory is ideal for you. All relevant suppliers are listed here – or you can also find suitable exhibitors online.

Even more exciting product ranges.

DECORATIVE AND FURNITURE FABRICS *The range of decorative and furniture fabrics continues to expand. Because of the increase in numbers, international exhibitors will now be presenting their products on the two hall levels 4.0 and 4.1.*

DIGITAL PRINTING *For the first time at Heimtextil: a microfactory for customised digital printing. See the complete digital production chain in Hall 6.0 – from design and printing to automated cutting. This process can be employed on demand and quickly adapted to new trends.*

NEW & NEXT *Experience a breath of fresh air from young start-up companies! Creative newcomers show off their innovative products.*

PREMIUM COLLECTIONS *Discerning retailers will discover in Hall 11 ideas around the bedroom, bathroom and table to expand and add excitement to their product ranges. Trendy premium collections are on show at “Modern Style” and elegant designs at “Modern Elegance”.*

Good to know.
